

David needs your help

YOU could save his life by joining the Anthony Nolan Bone Marrow Register

5 year-old David has a rare genetic condition called Fanconi Anaemia, which is causing his bone marrow to fail. His father, a Consultant Neurosurgeon at Sheffield's Teaching Hospitals said: "If we can't find a suitable bone marrow match, the likelihood is that David won't survive much beyond his tenth birthday". YOU could help.

How to help...

If you are aged 18-40 and in good health, you could help. Please come along to a special donor registration session to be tested and join the bone marrow register at...

CARE Fertility

John Webster House, 6 Lawrence Drive, Nottingham Bus. Pk NG8 6PZ

on

Friday 17th July from 12-3pm
